Professional Experience

DevOps Engineer @ Sky Deutschland GmbH (2021 — Present at Munich, Germany 🇩🇪)

- Managed GCP Cloud Infrastructure such as GKE clusters, VMs, Managed Instance Groups, Load Balancers using Terraform and Ansible for seamless operations.
- Managed deployment of Jenkins and SonarQube on GKE clusters using Helm charts for CI/CD and code quality analysis.
- Managed and operated a HashiCorp Vault Enterprise HA cluster on GCP & on-prem, managing namespaces as code with automated disaster recovery.
- Automated CI/CD processes with Jenkins and GitHub actions to enhance efficiency.
- Integrated Jenkins, SonarQube and Java, Node.js based microservices with HashiCorp Vault for enhanced security measures.
- Automated patch management of on-prem servers which are part of HashiCorp Vault performance secondary cluster using Ansible playbooks.
- Automated TLS certificate renewal for apps running on GKE clusters using Cert Manager Helm Chart.
- Hands-on experience on GCP Logging & GCP Monitoring. Managed and automated monitoring setup with Prometheus and Grafana dashboards.
- Implemented notification and alerting using Microsoft Teams Workflows for proactive incident management.
- Collaborated with cross-functional teams for operations. Gathered knowledge on Scrum and Scaled Agile Framework (SAFe).

Developer + DevOps Engineer @ SAP Hybris (SAP Customer Experience)

(2018 — 2021 at Munich, Germany 🇩🇪)

- Developed and maintained microservices and unit tests using Python and Node.js for ensuring high performance and scalability.
- Developed RESTful APIs with Golang and Python and deployed on AWS serverless architecture using Lambda functions.
- Managed release pipelines using Jenkins, Ansible and Terraform for automated deployments of SAP Hybris E-Commerce Suite.
- Implemented containerization using Docker and orchestrated deployments with Kubernetes on GKE and EKS.
- Managed CDN configurations using AWS CloudFront and Akamai to optimize content delivery and reduce latency for E-Commerce websites based on SAP Hybris E-Commerce Suite.
- Monitored applications and infrastructure using AWS CloudWatch and Dynatrace, setting up alerts for proactive issue resolution.
- Implemented notification and alerting using Slack Workflows for proactive incident management.
- Collaborated with cross-functional feature teams to define, design, and ship new features.

Working Student @ Heidelberg Materials (HeidelbergCement AG)

(2015 — 2016 at Heidelberg, Germany 🇩🇪)

- Creation of SAP BW queries for data extraction from SAP ERP system.
- Development and maintenance of SAP BI workbooks and dashboards.
- Data validation and quality checks to ensure accuracy of sales data.
